HOW PRIVATE LABEL WORKS WITH US

From first call to *first shipment.*

1
Brief & NDA
Your products, target price, channels and volumes. We sign an NDA and map your range to our lines.

2
Formulation & samples
Choose our baby-safe bases or develop a custom formula. Wipes substrates and lotions sampled side by side.

3
Packaging & artwork
Formats, sizes and components finalised; artwork checked against label requirements before print.

4
Testing & approvals
Stability, compatibility and quality checks on your final formula and pack.

5
Pilot & production
A pilot batch to lock specs, then scheduled production on the right line.

6
Dispatch & repeat
Batch-coded, QC-released goods dispatched; re-orders planned on a rolling forecast.

QUALITY, BATCH AFTER BATCH

Made for the most sensitive skin *there is.*

Raw material checks
Fabrics, actives, fragrances and packaging checked before they reach a line.

In-process controls
Lotion dosing, fill weights, seal integrity and counts monitored every run.

Finished-goods release
Each batch tested and released with documentation.

Batch traceability
Batch codes link every pack to its materials, line and shift.

Gentle by design
pH-balanced, mild bases with free-from options.

Confidential by default
NDAs, restricted artwork access and formula confidentiality.

WHO WE MANUFACTURE FOR

Built for brands that *sell to parents.*

D2C baby brands
Low-risk pilot runs that scale on the same lines.

Retail & supermarkets
Store-brand baby care at dependable volumes.

Pharmacy chains
Gentle, documented formulations for the chemist shelf.

E-commerce & quick-commerce
Marketplace-ready packs, multipacks and combos.

Hospitals & institutions
Bulk wipes and liquids for maternity and neonatal care.

Export & distributors
Private label for overseas markets, close to southern ports.

Let's build your *baby-care range.*

Send us your product list, target price and expected volumes. We'll come back with options, samples and a plan.
