Baby wipes manufacturing

Private label baby wipes, made at *crore scale.*

Novel Tissues manufactures baby wet wipes for brands, retailers and distributors across India and overseas. Nine dedicated wipes machines across our North and South India plants produce more than 1.5 crore wipes every month — so you can start with a trial run and grow to national distribution without changing manufacturers.

Wipes pack formats

Flip-top family pack
Rigid re-closable lid that keeps wipes moist to the last sheet. Popular for 72–100 count packs.

Sticker-lid travel pack
Light, re-sealable label lid — ideal for 20–30 count packs.

Pocket pack
10-count packs for diaper bags, sampling, gifting and hospital kits.

Multipacks & bundles
3-, 6- or 12-pack bundles for marketplaces and modern trade.

Lotion starting points

Pure water
High purified-water content with a minimal ingredient list. Fragrance-free.

Aloe soothe
Aloe vera with mild humectants for everyday diaper changes.

Chamomile calm
Chamomile extract and a soft, light scent profile.

Sensitive
Fragrance-free, dye-free and alcohol-free for delicate skin.

Moisture plus
Added humectants for a softer, more moisturising after-feel.

Your formula
Manufactured to your specification under NDA.

Customisation

Your fabric, your feel
Choose substrate and GSM. We sample options side by side so you can feel softness, thickness and strength before you decide.

Signature lotion
Set the water content, extracts, fragrance and free-from profile that matches your brand promise.

Pack architecture
Counts, lid type, multipacks and shipper configuration planned around your channels — marketplace, modern trade or pharmacy.

Artwork & print
Your brand printed on flow-wrap. We check proofs against pack dimensions and label requirements before print.

Claims, planned early
Every on-pack claim is planned with the testing needed to support it, before artwork is final.

Regional dispatch
Ship from the plant closest to your warehouses — North or South — for shorter lead times and lower freight.
